[Third Party Testing FAQ](#)

THIRD PARTY TESTING is required to support a certification of compliance to the rules shown below for children's products that are manufactured after the effective dates listed with each rule. The laboratories in this list have been accepted as accredited to test products to one or more of these children's product safety rules, as identified in the accreditation scope for each laboratory. A manufacturer of a children's product that must comply with one or more of these rules must support its certification of compliance with test results from one of these laboratories. -CHECK THE: [List of Accredited Testing Laboratories](#)

FEDERAL TRADE COMMISSION [Home](#)

RULES

General Policy or Interpretation & Exemptions under the Fair Packaging and Labeling Act [\[TEXT\]](#) [\[PDF\]](#)

As of December 17, 2015A, the rules are amended to:

- 1. *Modernize the Place-of-Business Listing Requirement*

For details or additional information please contact: bywierbicki@tdllp.com

Permits a business to omit from the product label its street address if it is listed in any readily accessible, well-known, widely published, and publicly available resource, including but not limited to a printed directory, electronic database, or Web site.

2. Incorporate a More Comprehensive Metric Chart

Provides for a more detailed conversion table for calculating the conversion of SI metric quantities to and from customary inch/pound quantities, specifically, the conversion chart published in the handbook, National Institute of Standards and Technology (NIST) Handbook 133.

3. Address the Use of Exponents With Customary Inch/Pound Measurements

Specifically permits the use of exponents for customary measurements inch / pound measurements.

4. Delete Prohibitions on Certain Retail Price Sales Representations

Eliminates sections addressing when and how a packager or labeler represents a commodity to be ‘cents off,’ an ‘introductory offer,’ or ‘economy size.’

NOTICES

As noted in CBP’s [CSMS 15000852](#) above, The FDA is providing guidance in spreadsheets for those interested in filing in order to assist brokers and importers in understanding the data required by the FDA for processing of entries in ACE.

The FDA hopes this will facilitate matters during the live production call with CB and would be pleased to review the data in advance and provide feedback to you, if you would find this helpful.

Additionally, all filers must receive authorization by CBP to file through ACE. FDA is happy to discuss any questions you may have . Please feel free to contact the FDA at ACE_Support@FDA.hhs.gov.

Attached at the end of this Update are the various templates to facilitate access.

Partner Government Agencies – Each agency has the ability to move at a different pace depending on many factors. See relevant information below for some of the PGA’s. Please note that this is not a comprehensive list of all PGA’s or all requirements. This information is intended to highlight the major areas at this time. It also provides information in relation to the February 28, 2016 mandatory date to file ACE Entry Summary and ACE Cargo Release. If your commodity requires data be sent to multiple agencies, please see each agency below as all relevant agencies will need to coordinate for a pilot filing.

NHTSA (DOT) – NHTSA data is required to be filed electronically via the PGA message set in ACE on February 28, 2016. It is one of three PGA’s requiring data be transmitted into ACE by this date. NHTSA is accepting filers for all NHTSA data. At this time in the pilot, a conference call will be held for the first successful filing. Thereafter, a filer will be able to file NHTSA entries without holding a conference call.

APHIS (Lacey Act) – Lacey Act data is required to be filed electronically via the PGA message set in ACE on February 28, 2016. It is one of three PGA’s requiring data be transmitted into ACE by this date. APHIS is accepting filers for Lacey Act data. At this time in the pilot, a conference call will be held for the first successful filing. Thereafter, a filer will be able to file entries with Lacey Act data without a conference call.

FDA - FDA data is required to be filed electronically via the PGA message set in ACE on February 28, 2016. It is one of three PGA’s requiring data be transmitted into ACE by this date. To file only FDA disclaimers, contact only the CBP staff listed in the CSMS message. Importers and Filers will need to work directly with FDA prior to requesting participation in the PGA Pilot program for any other FDA program, including Prior Notice.

EPA – EPA data will be required to be filed electronically via the PGA message set in ACE in July, 2016. To file only EPA disclaimers, contact only the CBP staff listed in the CSMS message. Importers and Filers will need to work directly with EPA prior to requesting participation in the PGA Pilot program for other EPA programs.

1. Contact EPA (Roy Chaudet, Chaudet.roy@EPA.gov) about interest in the pilot and provide the name of the importer, the commodity, and the port.
2. EPA will take a look and make sure there are no concerns about the particular importer. A broker can recommend any number of importers for EPA to look at.
3. EPA will get back to interested party about the importer and lay out the process for (1) testing in CBP’s certification environment, and (2) war room call for the first production filing.
